## WARRANTY INFORMATION

Ontario Knife Company® products manufactured in the United States of America are backed by a limited lifetime warranty; if any of our Made in the U.S.A. products fail due to faulty workmanship or faulty materials; we will repair or replace it free of charge with the same item or an item of equal value. The workmanship and materials of OKC International and globally sourced products are backed by a one year limited warranty. All warranties exclude products subjected to abuse, misuse, or neglect.

## OKC® JOURNEYMAN TANTO

The OKC® Journeyman Tanto is the newest addition to the Journeyman Legacy. Continuing the tradition of the stacked leather and handle keeping pace with the 499 Pilot's Survival Knife and Journeyman predecessor, the tanto blade shape provides the same compact feel as the Journeyman while allowing it to stand on its own as a workman's knife.

## ► OLD HICKORY OUTDOOR FISH & SMALL GAME

Old Hickory Outdoor presents a brand new design with the Fish & Small Game Knife. Modeled after the classic Kephart style knife, this design is reliable and widely trusted by outdoorsmen all over the world. This knife easily takes on tasks ranging from bushcraft to hunting and paired with a durable leather sheath. The Fish & Small game knife makes a great companion with materials that you already know and trust.

## OLD HICKORY OUTDOOR MINI FILET

Is our OH-O Filet knife just not the right size for you? Well, luckily we've made it a lot more travel friendly. As with all the OH-O products, this blade comes with a leather sheath and is a perfect, scaled down version of our standard filet. Take this with you on any fishing trip and we guarantee you'll have the best companion you can ask for.

## ► CAMP PLUS SKEWERS / STAKES

Camp Plus allows us to show our versatility in ways that don't necessarily have to come in bladed options. Ontario Knife Company's plastic molding division, Jericho Tool, allows us to produce fully molded pieces like our tent stakes. As a fully functioning manufacturer, we are able to build out custom items and OEM projects from a variety of plastics and metals.

## OKC® SHIKRA

The OKC® Shikra is the newest folder in the Ontario Knife Company family. With a single linen micarta scale for texture and grip, the other side of this knife has a titanium scale and frame lock providing intense durability, safety and stability. Shikra gets its name from the Shikra hawk, an appropriate name considering the knife is light, aggressive and talon sharp.

OVERALL LENGTH	7.4IN (18.8cm)

## ► 2019 NEW PRODUCTS

In the tradition of two of our most venerable and popular knife brands, OKC has added the OKC® Journeyman and the Old Hickory® Hunting Knife. The OKC® Journeyman is a workman and outdoorsman's knife designed in a similar fashion to the trusted classic 499 Pilot's Survival Knife. The Old Hickory® Hunting Knife is immediately recognizable as an Old Hickory, but paired with a leather sheath and designed to be carried outdoors.

## 2019 NEW PRODUCTS

OKC® is known for knives and tools that are purpose driven to do one thing: get the job done. The SPEC Plus® Alpha Kukri and the Jericho J-Hook with glass breaker are carrying our tradition forward. The SPEC Plus® Alpha Kukri is fast in the hand but with a ton of power to make short work of any chopping, clearing, or emergency task. The Jericho J-Hook with glass breaker is the one OKC® product we hope you'll never use. The strap cutter will slice through a seatbelt with very little effort, and the glass breaker will free you from your vehicle whether you can open the doors and windows or not.

## FIXED BLADES

Ontario Knife Company is one of the few remaining American bayonet manufacturers and the sole source of the combat deployed OKC3S bayonet. Complementing our legacy of military issued bayonets, which include the M9 and the storied M7, Ontario Knife's tactical blades include the Air Warrior Program's ASEK survival knife, the Freedom Fighter®, OKC's Kukri and the Navy-issued Mark III.

## ► OKC® BLACK BIRD SERIES

The award winning Black Bird series was designed by custom designer and sheath-maker, Paul Scheiter, for maximum performance with an elegant simplicity and the signature elements of a center point blade, straight back profile and flat heel for maximum utility. Featuring high quality 154 CM stainless steel and a black G-10 handle, the Black Bird variants come in either a silver finish or with a special operations capable (SOC) powder coating for added durability. All Black Bird models include a MOLLE compatible sheath.

# OLD HICKORY® OUTDOOR

The history of the Old Hickory® brand has roots that stretch as far back as 1924 and has become one of our most recognizable and best selling brands. With its iconic hammer stamped blade, brass rivets and hickory handle not much has changed about Old Hickory® aside from some minor adjustments and new items in the line itself. Standing the test of time isn't always easy, but when you're simple, effective and consistent it seems to help and that's one of the reasons we believe that Old Hickory® is still here.

As a staple in kitchens around the U.S. and the rest of the world, Old Hickory® is recognized more often than not as "the same knives my grandparents always used" but just as often we hear "these make great bushcraft knives" or "I've modified my Old Hickory butcher knife to go hunting with!" In this spirit, we decided to create Old Hickory® Outdoor. The debut of the OH-O Hunting Knife in 2019 cemented that OKC® needed to build further around this idea. Ontario Knife Company is excited to present a full line of OH-O products including the fish and small game knife, mini filet, full size filet and the bird and trout knife. Each of these items, just like the hunting knife, is coupled with a form fitting leather sheath.

Old Hickory® Outdoor has the potential to make any hunting and camping experience more convenient and/or successful. Our hope is to provide outdoorsmen with a product that can stand that test of time to help drive better experiences.

## ► ROBERT CARTER SERIES

OKC's® collaboration with Robert Carter started with the Carter Prime and continues with the Carter 2quared and Carter Trinity. All three knives feature titanium handles, with the Trinity featuring a beautifully contrasted G10 handle scale. Each knife is designed to be a durable and versatile every day carry that makes you better prepared to get any job done.

## OKC® NAVIGATOR/TRAVELER

The Navigator and Traveler are two lightweight, small, convenient folders that will quickly become some of your most trusted companions. The OKC® Navigator features a scalpel-sharp blade and point with a liner lock. The OKC® Traveler has a slip joint mechanism and drop point blade which was designed to be legal in as many states and countries possible, making it the most convenient option for anyone on the go.

## ► OLD HICKORY® SERIES

First introduced in 1924, the Old Hickory® knives are the most venerable product line still in active production. The Old Hickory® knives feature a hardwood handle secured with brass compression rivets to high carbon steel blades that are both very sharp and capable of retaining and edge better than most stainless knives. Proudly manufactured with artisan processes for over 90 years, Old Hickory® has stood the test of time and is proven to be the best carbon steel kitchen cutlery sold today.

## ► AGILITE® SERIES

The Agilite® line was designed to be the most lightweight, durable, ergonomic, and advanced cutlery produced by Ontario Knife Company. Engineered down to the edge geometries by blade-master Dan Maragni, the Agilite® knives are technically superior to almost any cutlery in the market. Featuring double injection heat resistant molded handles and Sandvik 14C28N™ fine carbide steel, the Agilite® knives define premium cutlery. However, true to form for OKC® products, they are affordably priced.
