### HOW "RANDALL MADE" KNIVES ARE MADE

The blades are hand forged from the finest imported Swedish Tool Steel, hand ground and hand finished, tempered uniformly in an electric furnace. All blades are razor sharp, and perfectly balanced for all uses.

The handles are made from the heaviest sole leather. Hilts are of solid brass, and give best hand protection possible. Handle butts of Duraluminum, with hole for wrist thong.

The sheaths are the finest obtainable, made from top-grade saddle leather, having an attached pocket furnished with the best grade hone.
