HOW TO SHARPEN AND CARE FOR YOUR KNIFE

1. Oil stone so top is fairly moist
2. Lay blade edge on stone. Raise back of blade about $\frac{1}{8}$ inch above stone.
3. Sharpen against the edge (as if cutting into the stone) . . . moving the blade toward you off the stone at the same time.
4. On every other stroke sharpen other side of edge, going the other way on the stone.
5. Clean the stone after using it.

OIL — blades at the joints to keep blades operating smoothly.

WIPE — knife clean after using it to keep it from rusting and staining.

MR. DEALER

HOW YOU CAN SELL MORE CUTLERY

1. KEEP AN ADEQUATE STOCK

Stock all salable patterns and sets (larger quantities of the fast sellers). When a customer wants a certain knife or set — you have it. Camillus offers cutlery in all price ranges.

2. KEEP SAMPLES CLEAN

Bright and shiny display samples help to sell knives. Make your knives look worth your selling price.

3. DISPLAY IN GOOD, LIGHTED POSITION

Catch extra "impulse sales" by placing the display in a "Traffic" position. The wrapping counter or near cash register is a good spot.

4. USE PROMOTION MATERIAL

This starts sales and ties into Camillus National Consumer Advertising. It's a good reminder to customers who miss seeing your knife display.

5. DISPLAY IN WINDOW

Every little while a mass window display will help establish your store as cutlery headquarters. A set or a few knives should be in every possible window display. Tie into other feature windows — pruning knife with gardening; camp knife and fishing knife with outdoor, hunting or fishing window; gift knives at Christmas; household cutlery at all times, especially in May and June, in the Fall and before the holidays.

6. NEWSPAPER ADS

Work Camillus cutlery into your regular newspaper ads. This reminder advertising pays off.

7. KNOW ESSENTIAL SALES FACTS

Instruct your sales people on the selling points of our cutlery, as given in this catalog. Make them familiar with the items and their prices. The more they know about Camillus made cutlery, the more they will sell — and the more profit you will make.
