## Quality American-Made Knives

# Copperhead

## 1876...

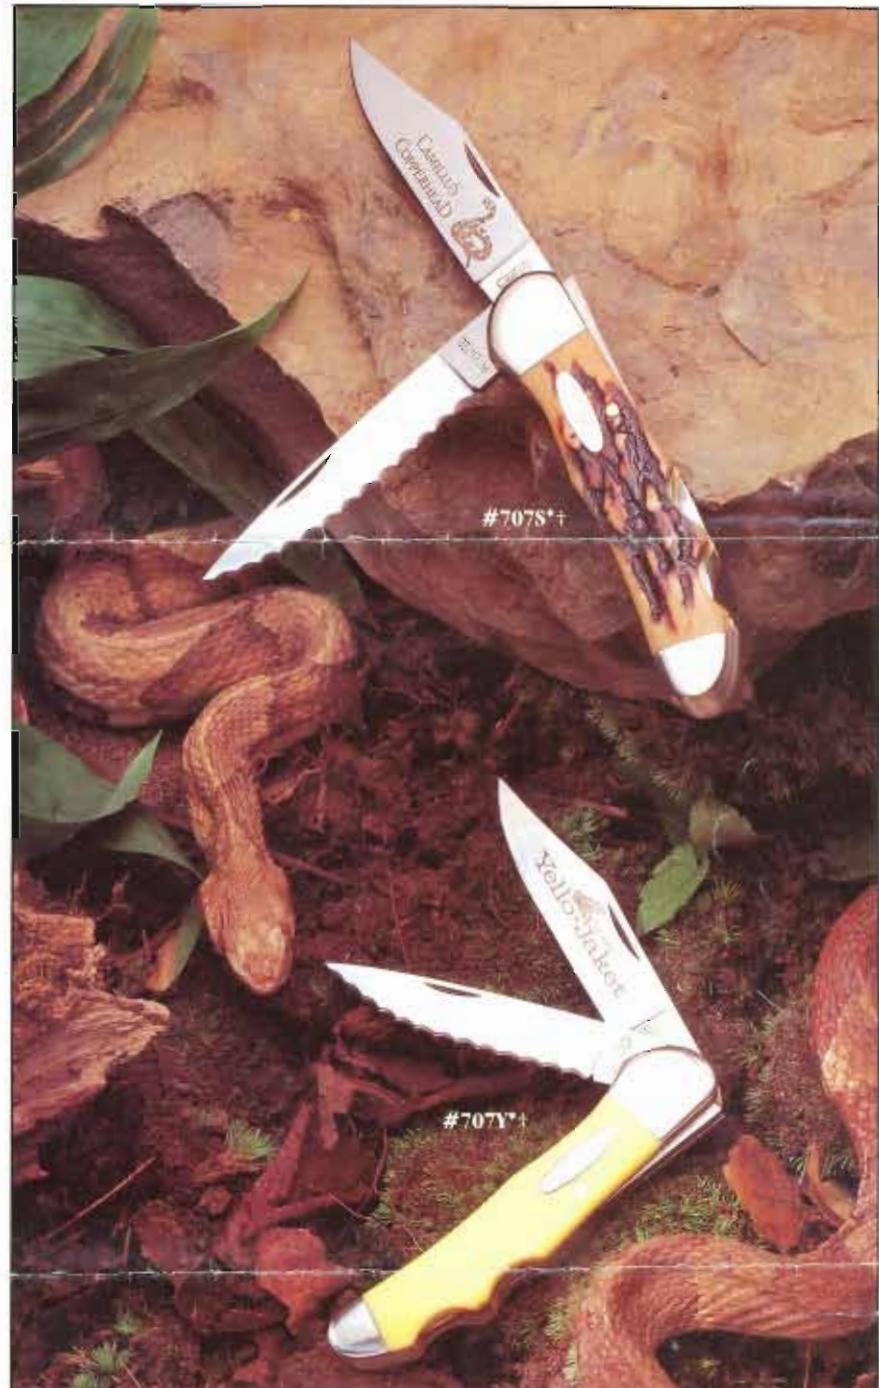

...was a memorable year. The year of the American Centennial . . . the year Alexander Graham Bell invented the telephone . . . the year Col. Custer's troops rode to the Little Big Horn . . . the year Mark Twain published *Tom Sawyer*.

With all the hoopla, few noticed a seemingly minor event: Adolph Kastor founded a hardware company. But by the time World War I broke out, Kastor's company had evolved into one of the world's major cutlery manufacturers, making over a million knives a year. Today, that company, Camillus Cutlery, is 115 years old—America's oldest continuous knife manufacturer. And today, the grandchildren and great grandchildren of Mr. Kastor's cutlers continue to build our unmatched tradition, one knife at a time.

We're proud of Camillus Cutlery's remarkable history. We're proud of the many superb knives we've made for sportsmen, collectors, and the American, British, and Canadian militaries. We're proud of our hundreds of innovations (in the last four years, we've been awarded more new patents than all other American knife manufacturers combined). But perhaps we're most proud of what hasn't changed. Craftsmanship. Timeless style. Top-quality 100% American-made knives. And the unbeatable value that our unique depth of experience lets us deliver to our customers. All backed by a lifetime warranty.

In this brochure, we're happy to introduce you to our newest designs. Most are built with technology and materials (like 440 Stainless Steel blades and Delrin® handles) that our ancestors could only dream about. But although the performance and durability are up to the minute, one glance will tell you that these exceptional new knives honor the classic designs we've been perfecting for over a century. We hope you'll like them as much as we do.

**Camillus Cutlery. Traditions and Innovations.**

### New for 1991!

Pure and simple, an instant classic. Our new Double Lok-Back Copperhead is smooth . . . direct . . . and tough, just like the name suggests. Patented double-offset, lateral-side-lock mechanism\* allows easy opening and closing without compromising strength—a Camillus exclusive. Those who expect a knife to earn its keep, year after year, won't be disappointed. Typical Camillus construction sees to that: 440 Stainless Steel blades, brass liners, stainless steel pivot pin, nickel-silver bolsters, and Delrin® handles (almost indestructible!) in either

India Stag or Yello-Jaket™ styles. Features handsome copperhead etching on the 2 1/8" clip blade. Second blade is a 2 1/8" scalloped Turkish clip. 3 1/2" overall length closed.

#707S\*+ Delrin® India Stag Handle

#707Y\*+ Delrin® Smooth Yellow Handle  
(blade etched Yello-Jaket™, this model only)

\*Patented under U.S. Patent No. 4,805,303.  
Other patents pending

†Available Second Quarter 1991

# Congressional District

## New for 1991!

Classic style that cuts across party lines. Your choice of two- or four-blade models brings you versatility for a wide variety of uses. Top-quality construction delivers the kind of performance you want in a knife—we hope your congressional representative is this sharp! Features 440 Stainless Steel blades, nickel-silver bolsters and shield, brass liners, and stainless steel pivot pins. All with your selection of super-tough Delrin® handle styles.

**Two-Blade Congressional District** has one 1 1/8" etched sheepfoot blade, plus one 1 1/16" pen blade. 3" overall length closed.

#709BL Delrin® Smooth Black Handle  
#709C Delrin® Cabone Handle

#709S Delrin® India Stag Handle

#709Y Delrin® Smooth Yellow Handle (blade etched Yello-Jakel™, this model only)

**Four-Blade Congressional District** has two 2" sheepfoot blades (one etched and scalloped) plus two 1 1/8" pen blades. 5 1/8" overall length closed.

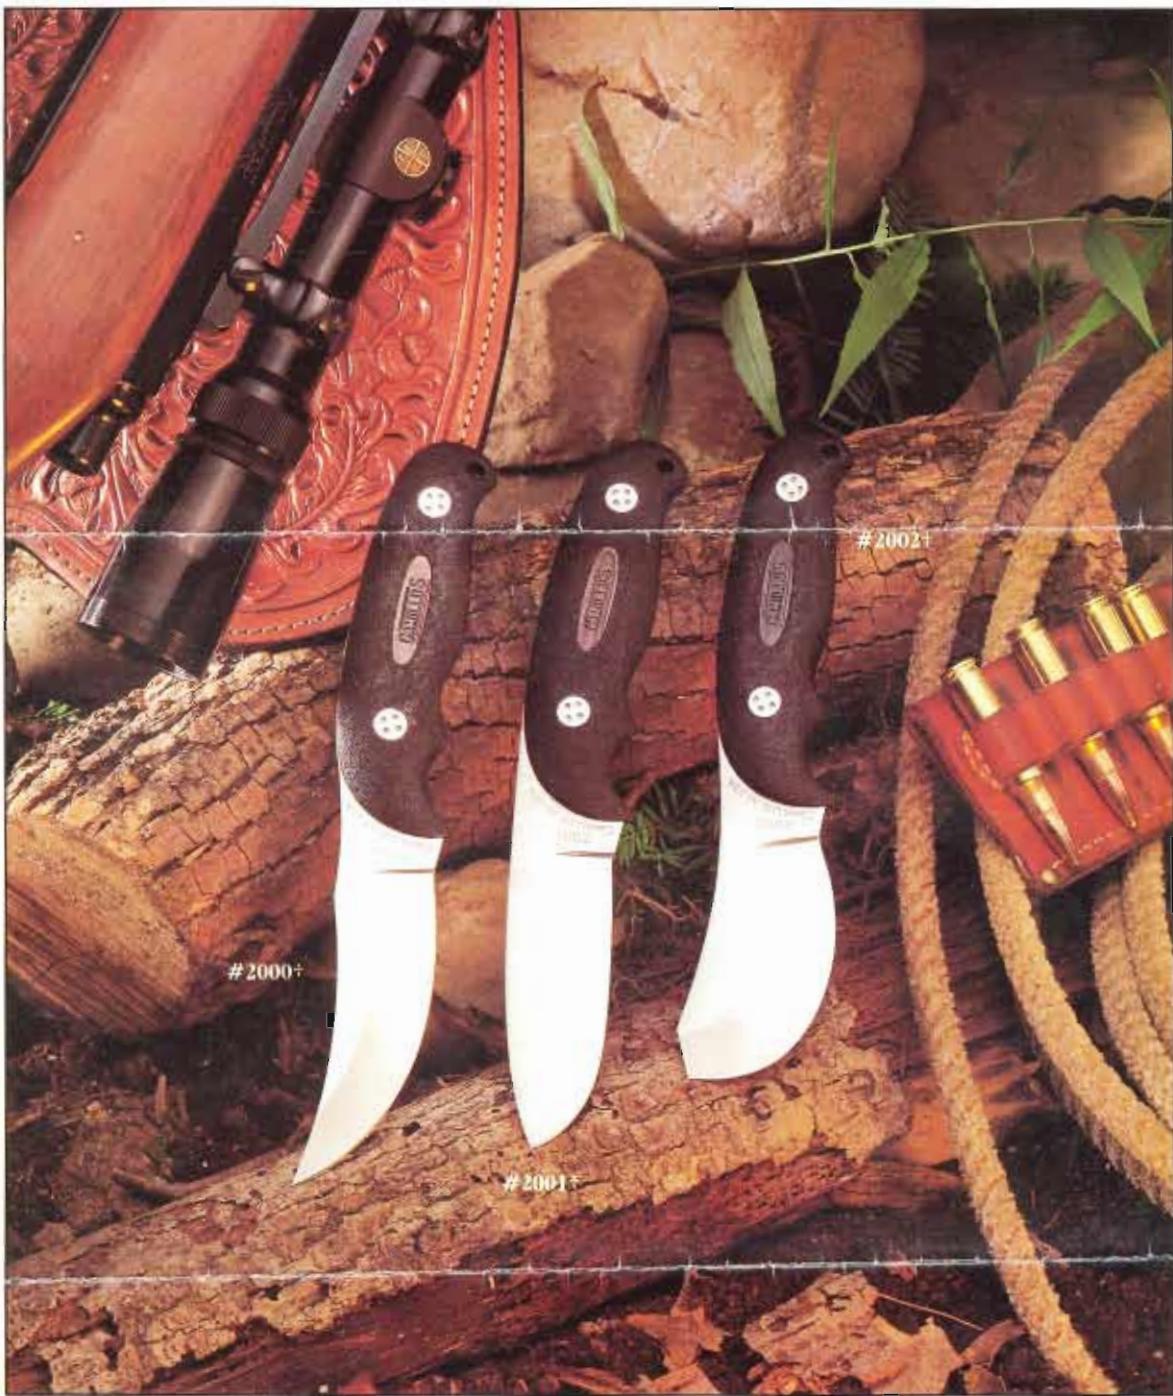

#712BL Delrin® Smooth Black Handle

#712C Delrin® Cabone Handle

#712S Delrin® India Stag Handle

#712Y Delrin® Smooth Yellow Handle (blade etched Yello-Jakel™, this model only)

# High Country Hunter Fixed Blades

## New for 1991!

Looking for fixed bladed hunting knives that can really take it? Want custom-made style without the custom-made price? You've come to the right page. You won't find tougher, harder working knives than our new High Country Hunter series. Whether you choose a modified clip blade, drop point blade, or big belly skinner blade, you'll have a knife you can depend on—and be proud of—season after season. All blades are hollow ground, 440 Stainless Steel. Handles feature anthracite textured finish, stainless steel aircraft-style fasteners, and

a lanyard hole. That's not all. These are the first knives ever with Kevlar® reinforced Zytel® handles. (Kevlar® is so strong, it's used in bullet-proof vests!) Leather sheath is standard.

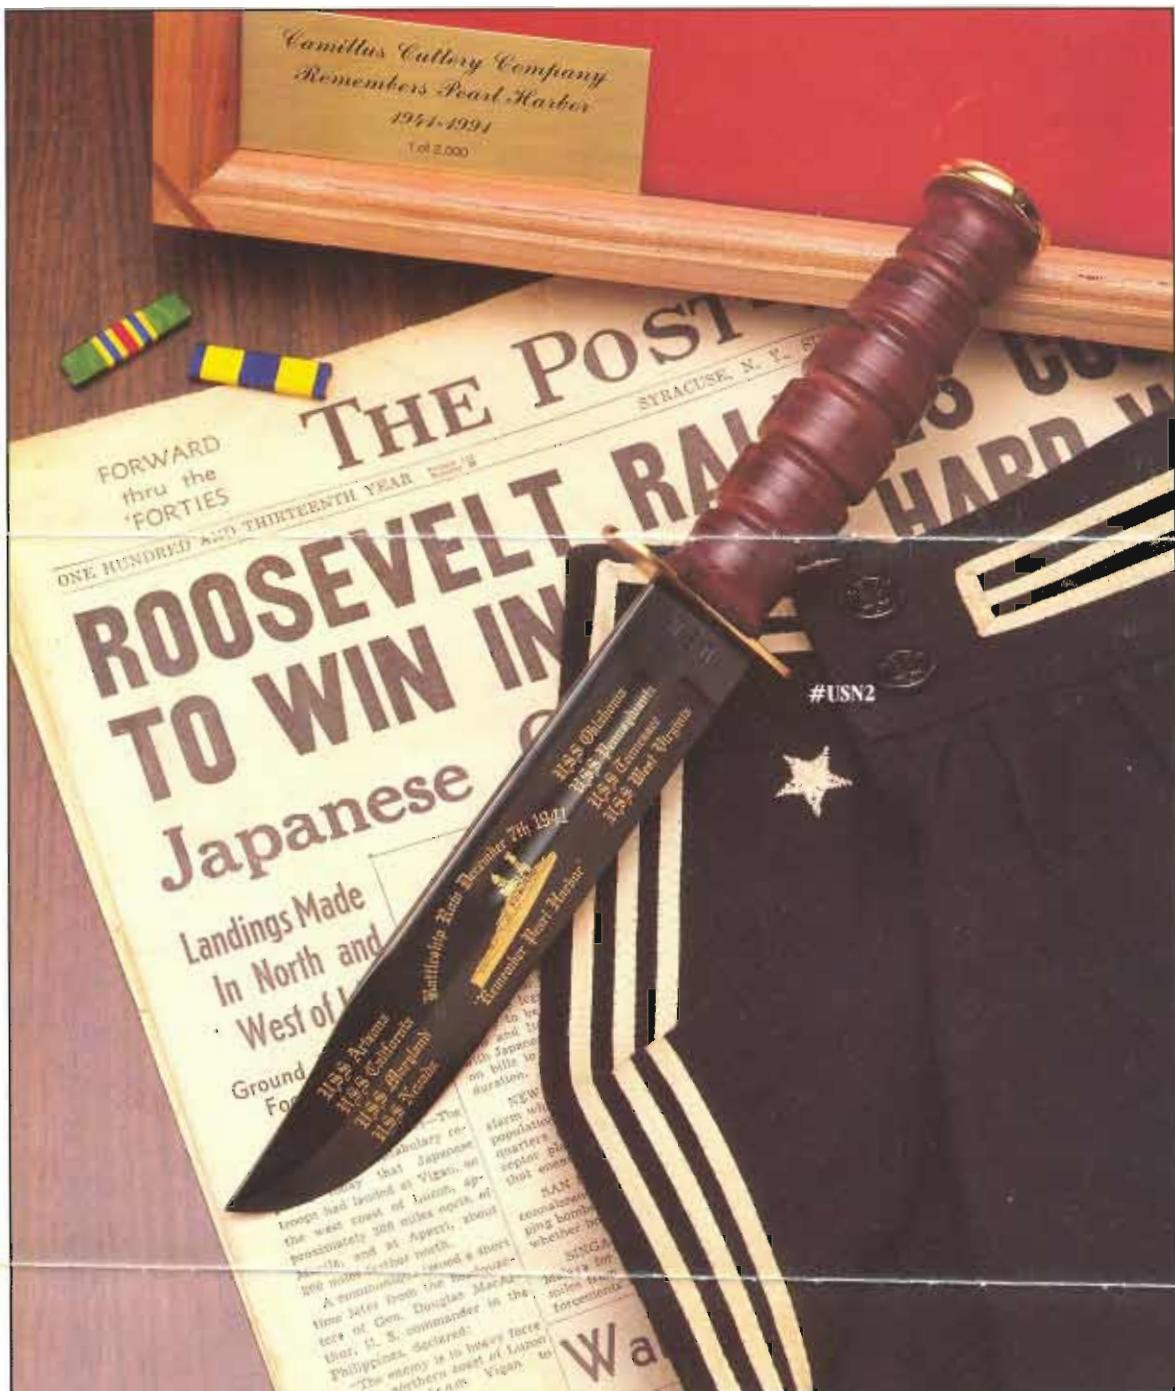

#2000+ Modified Clip 9" overall length

#2001+ Drop Point 8½" overall length

#2002+ Big Belly Skinner 8½" overall length

*+Available Second Quarter 1991*

# “Remember Pearl Harbor” Commemorative

## New for 1991!

It's not unusual for Camillus knives to serve their owners all over the world. But the millions of knives we built for American servicemen during World War II had a special mission. We built each one knowing that, in many cases, only uncompromising quality would make the difference between life and death. Our World War II commemorative series (begun in 1990) recalls those fighting knives—and celebrates the dedication, valor, and sacrifice of America's servicemen. Our 1991

Pearl Harbor Commemorative is a limited edition, U.S. Navy 7" Mark 2 combat knife, 13" overall length. The blade has a high luster blued finish, with 18 karat gold inlay of the USS Arizona with appropriate legend and a listing of the other Pearl Harbor battleships. This unique commemorative is packaged in a solid oak display case with a brass plaque denoting the year and number of pieces produced. We will build only 2000 of this remarkable commemorative knife.

#USN2†

†Available Third Quarter 1991

## Dino Knives

What lad hasn't imagined—no, wished—that somewhere out there, in a forgotten corner of forest, there are still living dinosaurs? How many of us as adults still carry that same quiet fantasy? We can't lead you to undiscovered dinosaurs. But we can provide a tangible reminder of those astonishing beasts. Our Dino Knives have handles made of authentic 150 million-year-old fossilized dinosaur bone. It's a fitting tribute that over the centuries, once-living bone turned into the beautiful stone you see here. A certificate of authenticity is included with each knife. 440 Stainless Steel Blades, nickel-silver bolsters.

**Four-Blade Dino Congress** has two  $1\frac{1}{2}$ " sheepfoot blades (one scalloped) plus two  $1\frac{1}{2}$ " pen blades. 3 $\frac{1}{2}$ " overall length

#501B

**Two-Blade Dino Jack** has one  $2\frac{1}{2}$ " clip blade, plus one  $1\frac{1}{2}$ " pen blade. 2 $1\frac{1}{2}$ " overall.

#502B

## Camillus Heritage Eagle Knife

In the Southwest, the American Eagle soars over a landscape unique in all the world. This beautiful knife honors the beauty of that landscape and the glory of the American free spirit. Here, luxury materials and timeless design combine. It's a traditional single-blade, lock-back design with 440 Stainless Steel blade, nickel-silver bolsters, and stainless steel pins. Striking handle is crafted by Native American craftsmen of the finest genuine natural materials: mother of pearl, turquoise, and onyx with sterling silver eagle inlays.

Packaged in a solid walnut presentation box. 4 $\frac{1}{2}$ " closed length. Heritage Eagle poster is included with purchase.

#301B

## Camillus ClassiC CartridgE

### New for 1991!

As the name indicates, the 45-70 Gov't cartridge was first introduced as a military round (back in 1873, just three years before the founding of Camillus Cutlery). And sportsmen have been familiar with the 45-70 Gov't cartridge for more than a century. So it's fitting that this classic cartridge is the first to be commemorated on a new series of limited-edition collectable knives. There's a handsome etching of the 45-70 Gov't cartridge on the  $3\frac{1}{2}$ " clip blade, with the Camillus ClassiC CartridgE logo engraved on the  $3\frac{1}{2}$ " spey blade. Both blades are 440 Stainless Steel.

A traditional knife this fine wouldn't be complete without genuine jiggled bone handles. And the authentic cartridge head shield with inert primer echoes the theme of this highly desirable offering.

Of course, there are all the other quality construction features you'd expect: Nickel-silver bolsters and pivot pin. And solid brass liners. 4 $\frac{1}{2}$ " overall length closed.

#CCC1+

+Available Second Quarter 1991

## Line Revisions for 1991

Camillus Cutlery is constantly revising its product line in response to the needs and preferences of our valued customers. It's our goal to always offer the finest and most desirable knife designs to sportsman and collector alike. Our 1991 line revisions:

### New Addition

**Yello-Jaket™ Whittler** (#72Y). 3 $\frac{1}{2}$ " closed length, three stainless steel blades (clip, pen clip, and coping), nickel-silver bolsters, stainless steel pin, brass liner. Yellow Delrin® Handles. Yello-Jaket™ blade etch.
