

2014 RETAIL PRICE LIST

Effective January 14, 2014

CRKT®

CRKT builds serious knives, engineered to perform on the job or in the field, year in and year out, without letting you down. All our hard-working knives are designed to be safer, more comfortable, and less fatiguing in use. How do we build such good products? We start with practical, performance-oriented designs created by some of the country's most innovative designers. Materials are absolutely the best available, from world-class blade steel—a high-carbon chromium stainless—to some of the most technologically advanced new synthetic handle materials. We control manufacturing quality from beginning to end. We build knives the way fine knives should be built—without compromising quality in any part of their creation. CRKT accessories are crafted to the same high standards as our knives, so that each sheath lives up to our high expectation, and yours. CRKT knives are equal in quality to the finest knives in the world and we work hard to make sure our prices are fair. If you'd like to know more, our catalog is available on our web site at www.crkt.com, or please write or call for a free copy.

THE CRKT LIMITED LIFETIME KNIFE WARRANTY.

This warranty covers any defects in materials or workmanship. If one of our knives ever breaks or fails because of material or manufacturing defect, we'll replace the knife.

This warranty runs as long as you own your knife. Coverage ends if you sell or otherwise transfer the knife to someone else, or if your CRKT knife is modified in any way.

This warranty does not cover breakage or failure due to misuse of the knife. Knives as good as ours rarely break or fail because of a defect. Usually they break or fail from what we call "tool abuse"—using them for unsuitable tasks like prying or pounding. Therefore, blade tip breakage is not covered by our warranty. (Exceptions are the A.B.C. Blunt Tip and M.A.K.-1 models.) Use of a knife for any purpose other than cutting voids the warranty. So please match the tool to the task, and use your knife only for cutting. The knife will last longer, and you'll be safer too. This warranty does not cover failure of mechanisms due to your failure to properly maintain them.

Also, consequential and incidental damages are not recoverable under this warranty. Some states do not allow the exclusion or limitation of consequential damages, so this exclusion or limitation may not apply to you.

Misuse of your knife can cause serious injury or even death. It can also cause your knife to break or fail and the CRKT limited lifetime warranty will not apply. Failure to properly maintain your knife also may cause its mechanisms to not function properly, which could result in injury to you or damage to the knife. Follow the do's and don'ts which are included in your CRKT knife package and the knife will last longer and you'll be safer too.

COMPANY BILLBOARDS

See our web site for a full-color photo of imprinted products.

Let CRKT knives be billboards to present a strong, quality image for your company.

All CRKT models can be imprinted with your company name and logo to promote your product or service for years to come. A variety of durable imprint colors are available for high-quality, detailed printing of your unique identity on handle, blade or sheath. Blades and metallic handles may be decorated with fine detail laser engraving. Because CRKT knives are used in so many ways every day, you can be sure that they will not be put away in some drawer, but will be visible as a constant reminder of your company. In short, they are not trinkets, but real, quality work tools that the recipient will appreciate for years to come. CRKT billboards are remarkably affordable. Please call or fax with company information and your imprint specifications, and we will get your customized sales promotion started.

Guidelines for Ordering and Other Important Information

- Artwork can be provided as camera ready, on disk, via e-mail or uploaded to our ftp site. Call for details.
- Your art works best if it fits the area of the knife to be decorated. For example, horizontal art looks best when displayed on the blade or handle. Your art can be enlarged or reduced to fit the available area on knife blade or handle. However, if your art is vertically oriented we will try to make the adjustments necessary for it to fit.
- We will e-mail or fax your knife with artwork in place for your approval. The artwork must be approved before order processing will begin.
- Lead time to shipment is a maximum of 4 weeks from the date we receive your approval of the photocopy.
- Ink Color: Please provide a PMS color number and we will come as close as possible with available stock ink colors.

Note: Laser engraving decoration is available in black only.

Terms:

These are non-returnable custom items, therefore:

- For current CRKT customers, a 50% deposit is required with the order, with the balance due per standard payment terms.
- For new CRKT customers, a 50% deposit is required with the order, with the balance guaranteed by a major credit card.
