For The Real World

ESEE Knives®

The Leader In Survival, Tactical And Outdoor Knives Since 1997

Since 1997, Randall's Adventure & Training® has designed no-nonsense, affordable field knives and gear specifically targeted to military, law enforcement and the Special Operations Community. ESEE knives and gear serve in the combat zones of Iraq, Afghanistan and other remote areas around the world. ESEE also sets the standard for many local, state and federal law enforcement officers when it comes to high performance, compact sheath knives with multiple carry options.

**TRAINING & GEAR BORN IN THE
JUNGLES OF SOUTH AMERICA**

**Fixed Blade Tactical & Survival
Knives Made In The USA**

A well-worn ESEE knife used in the jungles of South America by a Special Forces officer in the Peruvian Air Force. This knife has been the officer's primary fixed blade on numerous survival training classes and rescue operations in the Amazon jungle during a three-year period, and it's still going strong!

Setting The Industry Standard For Customer Service

NO QUESTIONS ASKED LIFETIME WARRANTY

No Questions Asked Warranty on all fixed blade knives. If you break it, send it back and we'll replace it. Warranty is transferable. In other words, we warranty the knife no matter how many times it's been traded, sold or given away. No sales receipt required. We do not guarantee against rust or normal wear and tear.

Where did the name IZULA come from?

The locals in the Amazon call the meanest, most aggressive ant in the jungle "Isula" (spelled with an "s"). We know it as the Bullet Ant. The Bullet Ant is known to be independent, tough, light on its feet, and a real aggressive survivor. The IZULA knife is built the same way. It's a perfect survival kit or concealed carry knife.

Sheath Accessories

For Tactical And Survival Applications

ESEE 5/6 MOLLE Back And Pouch System

The ESEE 5/6 MOLLE back fits the ESEE-5, ESEE-6 and Laser Strike sheaths. The top of the MOLLE back has both an adjustable handle retention strap and a flap that can be slipped over the pommel of the knife and secured tight with the paracord and cord lock, thus making the ESEE-5 or ESEE-6 sheath jump safe. Both the top portion and lower portion of the MOLLE back have built in belt loops and MOLLE straps.

The accessory pouch will bolt to the front of the ESEE-5 or ESEE-6 hard sheath. This pouch will hold either the included storage tin or a regular Altoids tin, as well as any other gear you can fit into the pouch.

Adventure Travel In The Third World

Do you have the urge to travel to places where "tourists don't go"? Where an American Express card is a curiosity and a first-aid kit a luxury? Where you might rely on the latest and greatest in adventure gear, only to find the locals wear nothing but a loincloth and a smile? If this sounds like your idea of a great time, then you've found the right book. Authors Jeff Randall and Mike Perrin have logged thousands of miles overseas and have years of experience leading travelers deep in the wildest cities and most rugged backcountry of the Third World. In this book, they help you recognize and minimize the many risks that come with venturing way, way off the beaten path so that you can come home with stories the average tourist will never be able to tell.
