KA-BAR
OLEAN NY

KA-BAR®
HARDCORE KNIVES. HARDCORE LIVES.

You can buy any knife or you can own a real KA-BAR®.

The KA-BAR® is a field-use knife that we have been making since WWII.

These specifications are for our CURRENT production and reflect the evolution and improvement of the knife design & materials over the years.

“The KA-BAR” is differential heat treated, with the tang being slightly softer than the blade. We have used this heat-treat process since WWII to assure that even under the punishing field conditions of battle, your KA-BAR will most likely bend and not break, thus allowing continued use and not rendering the tool functionless.

While “The KA-BAR” is marked “USMC” on the pile side (or reverse side) of the blade, for several years now we have also offered Olean-made leather handled KA-BAR knives marked with “U.S.ARMY” and “USN”.

When you see this icon, know that these KA-BARs are being made by family, friends and neighbors right here in the USA.

For even more information, please visit our YouTube and Vimeo channels where you can find several videos authenticating KA-BAR products against similar products.

KA-BAR® Knives, Inc.
Since 1898

We wouldn't tell you to buy a KA-BAR® knife because of its military heritage or because it's a legend in the world of knives.

We wouldn't tell you to buy a KA-BAR® because it comes from an American company with more than a century of knife-making experience.

And we wouldn't tell you to buy a KA-BAR® knife because of its resistance to corrosion, tested strength, unmatched edge-holding ability and out-of-the-box razor sharp blade. Because there's only one real reason to buy a KA-BAR®.

When it comes down to it and you're all alone and your survival depends on a knife, you're going to want a knife you can trust. A knife that won't fail you. A knife that has proven itself time and time again.

You can buy any knife or you can own a KA-BAR®.

KA-BAR® Stainless Steel All-Purpose Knives

NEW

KBD

MASTER SERIES

The KBD Master Series is a collection of KA-BAR® manufactured knives designed and authenticated by the leading outdoorsmen, survivalists, uniformed professionals and military experts in the U.S.

KBD

MASTER SERIES

BK&T KA-BAR

Ethan Becker
Becker Knife & Tool - Page 22

KA-BAR® is pleased to offer the Becker Knife & Tool collection designed by Ethan Becker, avid outdoorsman and founder of Becker Knife & Tool.

Since the early 1980s, the Becker Knife & Tool brand has become synonymous with industrial-strength tactical and survival knives. Now as part of the KBD Master Series, the BK&T line is positioned to expand on its versatility of uses in combat and field craft chores.

JAROSZ

Jesse Jarosz
Jarosz Knives - Page 26

We are proud to add custom knife-maker Jesse Jarosz to our team of designers. Jesse spent his childhood days hunting, fishing, and trapping in the Nebraska wilderness.

The Jarosz family has a long and proud tradition of working with their hands to produce quality products, from woodworking to general carpentry. Jesse utilized his family's knowledge, work ethic, and access to equipment at a young age to start making items of his own. Jesse soon began to make custom knives, founding Jarosz Knives.

DOZIER DESIGN

John Benner
Rick Hinderer
TDI / Hinderer Knives - Page 28

KA-BAR® proudly offers the TDI/Hinderer knife collection, a series of design collaborations between Tactical Defense Institute President and Chief Instructor, John Benner, and custom-knife maker, Rick Hinderer, owner of Hinderer Knives.

Based on their combined experiences as a veteran police Lieutenant and Fire Fighter/EMT, John Benner and Rick Hinderer have designed knives for real-world emergency situations, sure when gripped and ambidextrous for a multitude of mounting and application options.

DOZIER DESIGN

Bob Dozier
Dozier Designs - Page 30

We are humbled to offer several production versions of Bob Dozier Knives as part of the KBD Master Series. As founder of his own company for producing custom-made knives, Bob Dozier has been an icon in the knife making community since the 1960s.

The Dozier designed products are known for clean, straight forward lines. Their superb fit and finish provide excellent all-purpose utilitarianism at a reasonable price.

SNODY

Mike Snody
Snody Knives - Page 31

We are delighted to offer Snody Knives designed by custom knife maker, Mike Snody.

Mike prides himself on producing world-class, investment grade cutlery for the most extreme, discerning and demanding knife collectors and users on the planet.

ADVENTURE

Steve Johnson
Adventure® Blades - Page 32

KA-BAR® is excited to offer Johnson Adventure® Blades designed by Steve Johnson, an industrial engineer by trade and adrenaline junkie at heart.

The Adventure® knives are built to withstand abuse and never fail, even in the most demanding conditions like rugged terrain and extreme temperatures.

BK&T Fastener Info

The standard fastener sizes for the handles of the large Becker knives are as follows:
Cap Screws: 10 – 32x5/8"
Nuts: 10 – 32

The Allen Wrench used would be either a 5/32 or 4mm.

For the Short Becker knives, the size of the wrench is 9/64th.

The size of replacement cap screws are 8 - 32 x 1/2" and the nuts are 8 – 32

LIMITED LIFETIME WARRANTY

KA-BAR Knives, Inc. (the “Company”) warrants, to the original purchaser of the knife only, that this knife will be free from defects in material and craftsmanship under normal use and maintenance for the lifetime of the original purchaser. This Limited Warranty does not apply to any failure of, defect in, or damage to the knife caused by neglect, normal wear and tear, or by improper use, including throwing the knife, batoning with the knife, using the blades as a can opener, chisel, pry bar, screwdriver, digging tool, or for any heavy work for which the knife was not designed.

If the knife fails to satisfy this Limited Warranty, the Company will repair or replace the knife or substitute a knife of comparable value, at the Company’s option, and such repair, replacement or substitution shall constitute the sole remedy for any failure of the knife to satisfy this Limited Warranty or any implied warranty (ies) of the Company. In order to have a Limited Warranty claim evaluated by the Company, you must return the knife, at your own expense and risk, to KA-BAR Knives, Inc., at 200 Homer Street, Olean, NY 14760, attention Customer Service Department. Please include with the returned knife a brief written description of any claimed defect(s) in or failure(s) of the knife. Any returned knife determined by the Company to not be eligible for repair, replacement or substitution under the terms of the Limited Warranty will be returned to the Owner.

THE COMPANY MAKES NO EXPRESS WARRANTY OR REPRESENTATION WHATSOEVER OF OR WITH RESPECT TO THE KNIFE OTHER THAN THE FOREGOING LIMITED WARRANTY, AND ALL SUCH OTHER EXPRESS WARRANTIES ARE HEREBY EXPRESSLY EXCLUDED. ANY IMPLIED WARRANTIES OF THE COMPANY, INCLUDING WARRANTIES OF MERCHANTABILITY AND FITNESS, ARE LIMITED IN DURATION TO THE DURATION OF THIS LIMITED WARRANTY. THE COMPANY WILL NOT BE LIABLE FOR ANY SPECIAL, INCIDENTAL, OR CONSEQUENTIAL DAMAGES, AND ALL SUCH DAMAGES ARE EXPRESSLY EXCLUDED.

Some states do not allow limitations on how long an implied warranty lasts, or exclusion or limitation of incidental or consequential damages, so the above limitations or exclusion may not apply to you. This warranty gives you specific legal rights, and you may also have other rights which vary from state to state.

Caring for your KA-BAR®

Wipe blades after use with a dry, soft cloth. If knives are exposed to salt water, wash with mild dish detergent, rinse with tap water, then wipe with a dry, soft cloth.

Storing
Treat blade with a light coating of mineral oil before storing in a dry area separate from its sheath. If possible, store in paper sleeve provided with the knife at purchase.

Sharpening
Keep knives sharp by touching up edges as needed. Most KA-BAR® knives can be sharpened using an Arkansas stone or commonly available sharpening system. Most knives can easily be touched up using a coarse or hard stone.

When bringing back a very dull edge, a coarse or hard stone should be used first, followed by a finer, softer stone.

Knives made with D2 steel require diamond or ceramic sharpeners. Knives should at no time be sharpened on a belt sander or bench grinder. These machines ruin a factory-sharpened edge.

KA-BAR® Knives, Inc.
