LIMITED WARRANTY

All Queen Cutlery products are unconditionally guaranteed against defects in material and workmanship. Any product you feel is defective may be returned **ONLY** to our Factory Service Department. If found defective, your product will be promptly repaired or replaced without charge. This guarantee is in lieu of all other warranties, express or implied, and no one is authorized to alter or change it in any manner. Unfortunately, we are unable to repair or otherwise guarantee products which have been abused, improperly sharpened or otherwise worn out through use. The dealer is **NOT** authorized to make replacements under this warranty. All products believed to be defective must be **RETURNED** to Queen Cutlery Company, 507 Chestnut St., Titusville, Pa. 16354, attention of Service Department.

DEALER INFORMATION:

Minimum Order Required: \$30.00

Terms: 1% 10 days from date of invoice, Net 30 days.

F.O.B. Point: Titusville, Pennsylvania.

Orders, Correspondence, Payments, etc.: Send to General Office, address above.

Packaging: Except for Sharpening Stones, Sets, and Gamekeeper line most items are packed one-half dozen per box. Only those items designated on price list must be ordered in standard pack, or multiple thereof. All other products may be ordered in any fraction of a dozen, with no extra charge for this service.

Returns: **WRITE FIRST!** Explain your problem, this will save time for all concerned. Unauthorized returns will not be accepted. Authorized returns are subject to a charge up to 20% depending on the amount of work necessary to refurbish and repackaging.

Shortages: General Office must be notified of all shortages, whether pilferage or packing error, within 48 hours of delivery.

Display Cases: Furnished **FREE** with established minimum net billing. Your salesman or the General Office can furnish all details.

Information: Special Etching, Handle Imprinting, Gift Boxes, etc., write or phone General Office.

SERRA SHARP

THE FIRST SHEAR REALLY DESIGNED FOR TODAY'S MIRACLE FABRICS

The finest shears designed to cut polyester double knits, synthetics (of all weights), bonded and other heavy weight materials including draperies.

These shears, in gleaming chrome, have two very special blades. One has fine serrations to hold the material in place, while the other blade, sharpened to a knife edge, cuts cleanly and easily. Add to this the smooth cutting action and you have the finest shear available today . . . **SERRA SHARP** and Knife Edge by Marks.

QUEEN POLICY IS DEDICATED TO OUR RETAIL DEALERS

Mark-Ups and Gross Profits

Few terms are more misunderstood than "Mark-Up" and "Gross Profit."
You can go broke by failing to know their meaning.

MARK-UP is the percentage of the amount you earn on the **COST** of an item you sell.

GROSS PROFIT is the percentage of the amount you earn on the **SELLING PRICE** of the item.

MARK-UP — HOW TO COMPUTE IT:

A product costs you \$5.00. You sell it for \$7.50 — \$2.50 above cost. Divide cost (\$5.00) into your earnings (\$2.50). You get 50%. That is your mark-up on cost.

GROSS PROFIT — HOW TO COMPUTE IT:

The same product costs you \$5.00. Again you sell it for \$7.50 — \$2.50 above cost. Divide selling price (\$7.50) into your earnings (\$2.50) and you get a percentage of 33⅓. That is your gross profit on selling price.

From the above you will note that 50% added to the cost results in 33⅓% profit on selling price.

The table below shows the percentages over cost of 66⅔% to 100%, which is the recommended Queen resale price range. We trust you will find this a valuable aid when repricing merchandise on displays you already have, or when ordering a new display.

MARK-UP AND GROSS PROFIT

66⅔ %	added to cost is	40.03 %	profit on selling price
70 %	added to cost is	41.18 %	profit on selling price
75 %	added to cost is	42.86 %	profit on selling price
80 %	added to cost is	44.45 %	profit on selling price
85 %	added to cost is	45.95 %	profit on selling price
90 %	added to cost is	47.37 %	profit on selling price
95 %	added to cost is	48.72 %	profit on selling price
100 %	added to cost is	50.00 %	profit on selling price

Some manufacturers, in an effort to sell their product without regard to your store's profit, encourage price cutting. We are interested in your well being. Think before you cut your price. Can you sell enough more units to make it pay?

If you are selling a product at a present gross profit of 40%, and you cut your price by 5%, you must sell 14.3 more UNITS to get the same number of dollars. If the selling price is reduced 10% you must sell 33⅓ more UNITS; 20% twice as many UNITS.

Take a fair mark-up. Offer your customers good quality at a reasonable price. You will profit, your customer will profit, and we at Queen hope to profit with you.

Nothing sharpens  Queen Steel
as well as this Queen sharpening stone

*Before the dawn of civilization, fire and the knife
were man's first steps toward a better life.*

We are continually searching for ways to improve our products. In the 40's one of the most important discoveries was made, a cutlery blade alloy, Queen Steel.

Regular 1095 cutlery steel has .95 carbon content. Queen Steel has more carbon and additional ingredients to make it tough, rustproof, stain proof and corrosion proof, even in salt water.

This tougher, more expensive steel made better knives, but was also harder to work with. After years of study and experiments, the problems were solved. In 1946 the decision was made to discontinue all carbon steel pocket and hunting knives. Since that time Queen Steel has been used exclusively.

This steel alone makes Queen knives your best buy. Add to this prompt shipping, modern displays personally serviced by knowledgeable salesmen, and prices far below comparable quality, you know for sure Queen is the smart buy today.

Special blade etching and private label tang markings are available. Etching and imprinting quotes on request.

SUBSIDIARY OF SERVOTRONICS, INC.
TITUSVILLE, PENNSYLVANIA — TELEPHONE: Area Code 814 827-3674

Dear Queen Customer:

Queen Cutlery has, and will continue to refuse to sacrifice the quality of raw materials used in the manufacture of our products or omit any of the 125 plus hand operations necessary to bring you, our valued customer, a "Knife for Life."

The cost of quality materials, such as 440C stainless blade steel and the related labor cost to produce the product is constantly increasing and must therefore be passed on.

The attached price lists indicate approximately an 8% increase which will go in effect October 15th, however the old prices will be honored thru October 31. You will also notice two price lists different in color. One is our current line and the other shows you our patterns that will be discontinued when stock is exhausted. Also enclosed is a fact sheet on the new scissors and shears being offered by Queen. The present line will continue to be available until stock is exhausted.

Soon to be introduced and available for Christmas sales are the "Collectables from Queen." The first edition will be a two piece set which will include a large trapper (#19) and a small trapper (new item) in brown bone, serialized and packaged in an attractive gift box. The suggested retail will be \$60.00, dealer cost \$30.00.

As always we will be happy to supply you with new price discs if you will indicate the mark-up you desire with your new order.

In closing, the Management and Employees of Queen Cutlery sincerely appreciate your past business and if there are any questions regarding upcoming business, do not hesitate to contact us.

Sincerely,

Gary H. Hammerlund
Sales Manager
