SCHRADE I*XL COMMEMORATIVE A LIMITED EDITION

OF ONLY 8000 KNIVES

Produced to
commemorate
granting of the I*XL
"Makers Mark" to
George Wostenholm
by the Sheffield
Cutlery Guild
in the year 1787

"Certificate of Origin"
and registration slip
is provided with
each knife.

- * Blades highest quality stainless steel
- * Bolsters and shield solid nickel silver
- * Handles select natural rosewood
- * Liners solid brass
- * Presentation box included.

Each knife is serialized and will be registered in Sheffield. The rear bolster is deep struck with the Hallmark of the company and the shield and master blade bear the limited edition SCHRADE I*XL banner.

Following the I*XL Limited Edition Commemorative additional knife styles are in production and planned for introduction in the near future.

The business established by the first George Wostenholm in 1745 and carried on by his successors in the Wostenholm Company—a small cutlery factory located near Sheffield, England which grew to be one of the most important and respected cutlery firms in the world.

One of the best known I*XL knives in American history was the one made famous by Jim Bowie and exhibited at the Alamo in San Antonio, Texas.

I*XL knives also served throughout the Civil War as evidenced by numerous historic samples and prominent coverage is given to I*XL in the history that knives played in the founding of America.

In the disruptive years between two World Wars, I*XL all but disappeared from the American scene and those still available became sought after collectors items. Now after many years of absence the original George Wostenholm Company and its I*XL mark is being re-introduced into the United States and to the world through the cooperation and sponsorship of the SCHRADE CUTLERY CORP. of Ellenville, New York.

The I*XL Story began almost two and a half centuries ago with the founding of the George Wostenholm Company—a small cutlery factory located near Sheffield, England which grew to be one of the most important and respected cutlery firms in the world.

The business established by the first George Wostenholm in 1745 and carried on by his successors in the Wostenholm family always demanded and achieved a high level of quality in their products. As a result the firm grew and prospered and their I*XL "Maker's Mark" came to the attention of the entire world but especially to America which eventually became the company's largest market.

One of the best known I*XL knives in American history was the one made famous by Jim Bowie and which is now on exhibit at the Alamo in San Antonio, Texas.

I*XL knives also served throughout the Civil War as evidenced by numerous historic samples and prominent coverage is given to I*XL in the history that knives played in the founding of America.

In the disruptive years between two World Wars, I*XL all but disappeared from the American scene and those still available became sought after collectors items.

Now after many years of absence the original George Wostenholm Company and its I*XL mark is being re-introduced into the United States and to the world through the cooperation and sponsorship of the SCHRADE CUTLERY CORP. of Ellenville, New York.

As SCHRADE I*XL this famous "Maker's Mark" will again appear on the American scene.

The first SCHRADE I*XL knife being introduced is a

produced to commemorate the granting of the I*XL "Maker's Mark" to George Wostenholm by the Sheffield Cutlery Guild in the year 1787.

The commemorative knife was handcrafted in Sheffield to recreate the original legendary cutlery and is accompanied by a "Certificate of Origin" and registration slip. It is a three bladed stockman's style which for many years has seldom been seen in the U.S.A. and is, therefore, a valuable addition to any collection. Its rugged construction also makes it capable of superior performance in the field.

The Walden 125th Anniversary Committee and the Museum Committee of the Historical Society of Walden and the Wallkill Valley present this knife with great pride and with deep appreciation to the Schrade Cutlery Co. for making it possible.

The Village of Walden has had a long association with the cutlery industry in America with the location here in 1856 of the New York Knife Co. The skilled craftsmen that were available here led to the formation of the Walden Knife Co. in 1870 and the Schrade Cutlery Co. in 1904 as well as several other small companies. The Schrade Co. alone survived the depression and remained in Walden until 1958 when they relocated in Ellenville, N.Y.

A 1912 publication noted that one tenth of the cutlers in America worked here and that the combined output of all three factories was 6000 dozen knives a week.

This fine knife is a fitting commemorative of our Village which grew from a community of less than 600 people when the New York Knife Co. started to over 5,000 at the height of the industry earning Walden the title of "Sheffield of America".

Marcus H. Millsbaugh, Jr.
Village Historian

Schrade's Master Craftsmen, utilizing the finest materials known to the cutlery industry, have hand crafted the Walden 125th Anniversary knife, which features a High Carbon Steel Blade with a full etched original Walden Cutlery scene; Solid Nickel Silver Bolsters with a scroll design; and Solid Nickel Silver Linings and Ivory Delrin Handles with a Scrimshawed Walden 125th Anniversary Fire Dept. Emblem.

Each knife is Serialized and a Certificate of Ownership and Registration Card is enclosed in a Plush Maroon Velour Platform Presentation Box.
