LOCK-BLADE KNIVES by WESTERN

- Original outdoor scene etched into blade.
- Enclosed lock spring system. (Patented)
- Stainless steel blade and rocker.
- Double swedged blade for better point.
- Heavy duty pivot pin.
- Nickel silver bolsters on both ends for strength and beauty.
- Form fitting handle for better grip control.

THE WESTLOCK ENCLOSED SPRING SYSTEM

Western engineers have created an entirely new concept in lock blade technology. Instead of the exposed spring or split-rocker spring found in conventional lock blade knives, the Westlock design totally encloses a separate lock spring within the rocker arm. This innovation protects the lock spring and gives the knives a cleaner, neater appearance. The Westlock mechanism represents a major advance in modern lock blade construction.

THE WESTLOCK MECHANISM

PACKAGING — Each Westlock knife is packaged in a colorful gift box with an information booklet.

NEW

POCKET-SIZE WESTLOCK KNIVES

NO. S-521 BOBCAT—Resin impregnated hardwood handle. Satin finished 2½" drop point blade. Length closed 3⅞". Complete with pocket pouch.

NO. S-522 PHEASANT—Resin impregnated hardwood handle. Satin finished 2½" regular clip blade. Length closed 3⅞". Complete with pocket pouch.

POCKET POUCH — Soft vinyl pouch protects knife and pocket.

FULL-SIZE WESTLOCK KNIVES

NO. S-531 W/S BULL ELK—Black Delrin handle with nickel silver shield. Satin finished 3" drop point blade. Length closed 4¼". Molded leather belt sheath.

NO. S-532 W/S WHITE TAIL DEER—Resin impregnated hardwood handle. Satin finished 3" drop point blade. Length closed 4¼". Molded leather belt sheath.

NO. S-533 W/S WILD DUCKS—Black Delrin handle with nickel silver shield. Satin finished 3" clip blade. Length closed 4¼". Molded leather belt sheath.

NO. S-534 W/S BIG HORN SHEEP—Resin impregnated hardwood handle. Satin finished 3" clip blade. Length closed 4¼". Molded leather belt sheath.

BELT SHEATH — Top-grain leather sheath with heavy duty snap. Full belt loop is flexible which makes this sheath more comfortable to wear. Sheath slips on and off belt with ease.

Knives shown 2/3 actual size

WESTERN POCKET KNIVES

Knives shown 2/3 actual size

These knives are made by skilled craftsman using the finest of materials and will give many years of useful service. They have bolsters and shields of solid nickel silver and scales of solid brass. Springs are finished on the inside as well as the outside. Blades are made from special analysis cutlery steels, carefully heat-treated, mirror polished and hand honed to a keen edge.

NO. 062 W/S FOLDING HUNTING KNIFE

— Always a popular knife because of the large blades, compactness when closed and the convenience of a second blade. Carbon steel blades and springs. Stag pattern Delrin handle. Regular clip master blade and special long clip blade are both 3 3/4" long. Length closed 5 1/4". Molded leather belt sheath.

NO. S-062 W/S FOLDING HUNTING KNIFE — Same as above except blades and springs are stainless steel. Shield stamped "stainless".

NO. 241 PEN KNIFE — Carbon steel blades and springs. Pearl grey Delrin handle. Master clip and pen blade. Knife is designed with blade in each end operated by a single spring to make it slim and light weight. Length closed 2 3/4".

NO. 242 PEN KNIFE — Carbon steel blades and springs. Stag pattern Delrin handle. Master clip and pen blade. Knife is designed with blade in each end operated by a single spring to make it slim and light weight. Length closed 2 3/4".

NO. 243 LANCE BLADE KNIFE — Carbon steel blades and springs. Pearl grey Delrin handle. Master clip blade, pen blade and surgical lance blade with exceptionally fine point. Length closed 2 3/4".

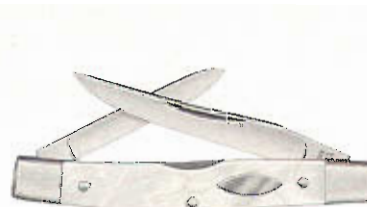

NO. S-244 LANCE BLADE KNIFE — Stainless steel blades and springs. Stag pattern Delrin handle. Master clip blade, pen blade and surgical lance blade with exceptionally fine point. Length closed 2 3/4".

NO. 292 JACK KNIFE — Carbon steel blades and springs. Stag pattern Delrin handle. Master clip blade and regular pen blade. Knife has traditional jack-knife blade action with square tangs on both blades to stop them in the half-open position. Length closed 2 3/4".

NO. S-381 NAIL KNIFE — This traditional style is thin, light, easy to carry and made entirely of stainless steel. Satin finish handle. Master clip blade and nail file blade with cuticle point. Length closed 3".

NO. 441 PEN KNIFE — Carbon steel blades and springs. Pearl grey Delrin handle. Knife is designed with blade at each end operated by a single spring to make it slim and light weight. Long clip master blade and thin pen blade. Distinctive bolsters styled with bevel-edge. Length closed 2 3/4".

NO. 442 PEN KNIFE — Carbon steel blades and springs. Stag pattern Delrin handle. Knife is designed with blade at each end operated by a single spring to make it slim and light weight. Long clip master blade and thin pen blade. Distinctive bolsters styled with bevel-edge. Length closed 2 7/8".

NO. 445 THREE-BLADE PEN KNIFE — Carbon steel blades and springs. Stag pattern Delrin handle. Pen blade, sheepfoot blade and long clip master blade. Distinctive bolsters styled with bevel-edge. Length closed 2 7/8".

NO. 652 LARGE PEN KNIFE — Carbon steel blades and springs. Stag pattern Delrin handle. Knife is designed with blade at each end operated by a single spring to make it slim and light weight. Long clip master blade and pen blade. Length closed 3 3/8".

NO. 657 PUNCH BLADE STOCK KNIFE — A favorite because of its useful leather punch. Carbon steel blades and springs. Stag pattern Delrin handle. Master clip blade, punch blade and spey blade. Length closed 3 3/8".

NO. 658 SMALL STOCK KNIFE — A scaled-down version of the premium stock knife. Carbon steel blades and springs. Stag pattern Delrin handle. Master clip blade, sheepfoot blade and spey blade. Length closed 3 3/8".

NO. 6504 WOOD CRAFT KNIFE — Good for whittling or carpentry work. Carbon steel blades and springs. Stag pattern Delrin handle. Master pocket blade, coping blade and small clip blade. Length closed 3 3/8".

NO. S-6504 WOOD CRAFT KNIFE — Same as above except blades and springs are stainless steel. Shield stamped "stainless."

NO. 691 TRAPPERS KNIFE — Carbon steel blades and springs. Stag pattern Delrin handle. Master clip blade and long spey blade. Knife has traditional jack-knife blade action with square tangs on both blades to stop them in the half-open position. Length closed 4 1/8".

NO. S-693 RACOONS — Stainless steel blade and spring. Split-scale type lock holds blade open when in use. Outdoor scene etched in blade. Stag pattern Delrin handle. Length closed 4 1/8".

NO. S-693 W/S RACOONS — Above knife with leather belt sheath.

NO. 742 PREMIUM STOCK KNIFE — The "old standby" for anyone on a farm or ranch working with livestock. Carbon steel blades and springs. Stag pattern Delrin handle. Master clip blade, sheepfoot blade and spey blade. Length closed 4".

NO. S-742 PREMIUM STOCK KNIFE — Same as above except blades and springs are stainless steel. Shield stamped "stainless."

NO. S-751 FISHING KNIFE — Stainless steel blades and springs. Yellow Delrin handle. Master clip blade and scaler blade with disgorger and cap lifter. Small hole in handle for sharpening hooks. Length closed 4 1/2".

NO. S-751 W/S FISHING KNIFE — Above knife with leather belt sheath.

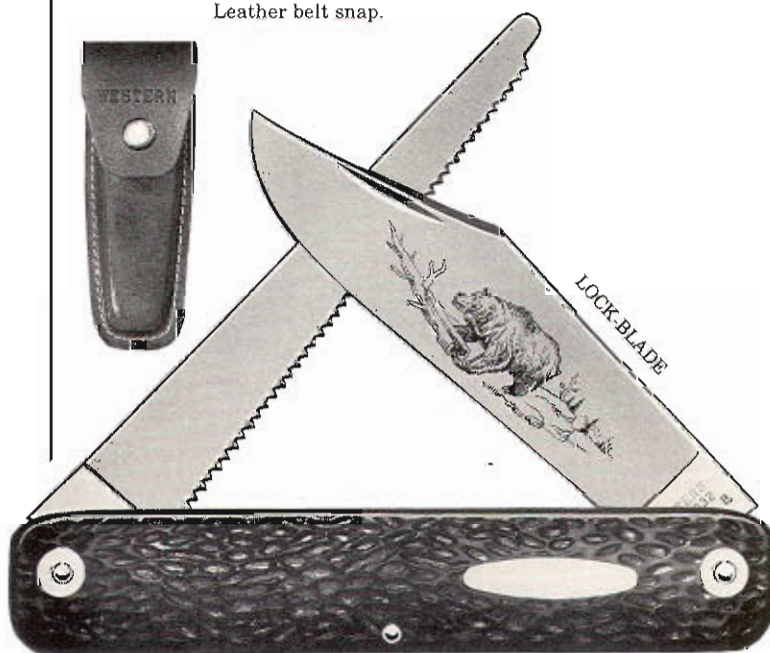

NO. 822 BARLOW KNIFE — Carbon steel blades and springs. Solid nickel-silver bolsters and brass scales. Saw pattern Delrin handle. Master clip blade and pen blade. Knife has traditional jack-knife blade action with square tangs on both blades to stop them in the half-open position. Length closed 3 1/2".

NO. 854 UTILITY KNIFE — Carbon steel blade and spring. Brown Delrin Handle has hole for chain or thong. Flat ground 2 3/4" blade. Split-scale type lock holds blade open when in use. Blade has square tang. Length closed 4".

NO. S-901-S CAMPERS KNIFE — Five tools in one knife. General purpose master blade, leather punch, can opener and screwdriver with bottle-cap lifter. Stainless steel blades and springs. Stag pattern Delrin handle. Nickel silver bail. Length closed 3 1/2". Leather belt snap.

NO. 932 KNIFE-SAW, BEAR — A compact versatile tool modeled after a World War II pilot's survival knife. To reduce weight, knife is made with rosettes instead of the usual bolsters. Stag pattern Delrin handle. Carbon steel blades and springs. Flat ground 4 1/2" knife blade with split-scale type lock of heavy gauge brass. Outdoor scene etched on knife blade. Spring tempered 5" saw blade (10 teeth per inch). Each blade has a square tang and is operated by a separate spring. Length closed 6". Molded leather belt sheath.

WESTMARK®

Custom Quality

SHEATH KNIVES

These handmade knives represent the ultimate in design, craftsmanship and materials. Made for rugged use, they have heavy gauge blades with double tangs, and handles with form-fitting contours. Each blade is stamped with an individual serial number. Leather scabbards are hand crafted from carefully selected 8 oz. hides, and made with triple thickness on the edges and heavy nylon stitching.

Knives shown 1/3 actual size

GIFT BOX — Each Westmark knife has a handsome gift box with information booklet and registration card.

MODEL 701 — Designed with a high point and long, curved cutting edge. Stainless steel saber ground 5½" blade with satin finish. Laminated resin impregnated hardwood handle has brass guard and aluminum end-knob. Overall length 10".

MODEL 702 — General purpose knife with many uses. Narrow 5" blade of stainless steel has high saber grind and satin finish. Laminated resin impregnated hardwood handle has brass guard and aluminum end-knob. Overall length 9½".

MODEL 703 — Special shape has enlarged choil that enables user to place one finger ahead of guard for maximum control. Wide 4½" blade of stainless steel has high saber grind and satin finish. Laminated resin impregnated hardwood handle has brass guard and aluminum end-knob. Overall length 9".

WESTERN SHEATH KNIVES

Knives shown 1/3 actual size

These proven designs feature practical blade shapes, full length solid brass guards, well formed aluminum end-knobs and a variety of handle materials. They are built with Western's exclusive double-tang handle construction, except where noted. Blades are made from special analysis cutlery steels, carefully heat-treated, mirror polished and hand honed to a keen edge. Top-grain leather sheaths are made in the Western knife factory from vegetable-tanned hides.

—Long, flexible blade for filleting large saltwater and freshwater fish. Satin finished stainless steel flat ground 9" blade. Overall length 14". Leather sleeve for storing only.

AXE KNIFE COMBINATION

Shown 1/3 actual size

NO. W6610

— A compact outfit light enough to be carried on the belt. Carbon steel axe-knife combination with matched, resin impregnated hardwood handles. Knife has saber ground $4\frac{1}{2}$ " blade. Axe has $2\frac{3}{4}$ " cutting edge and overall length of 11". Leather sheath is made as one unit with belt slot. Axe alone weighs one lb. Combination set packaged in box that can be folded into self display unit.

BELT AXE

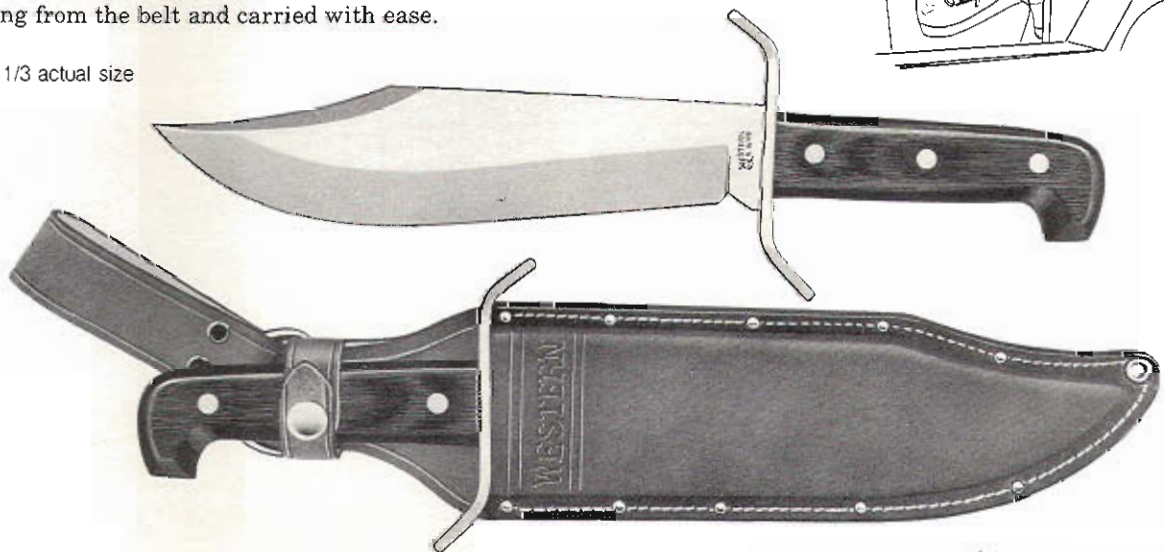

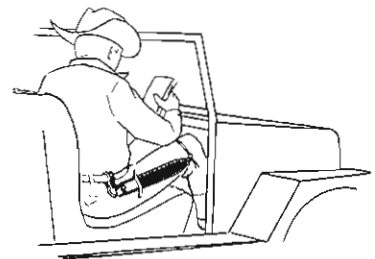

NO. W10 LIGHTWEIGHT AXE — Carbon steel axe with $2\frac{3}{4}$ " cutting edge. Resin impregnated hardwood handle. Overall length 11". Leather belt sheath with belt slot. Axe weighs one lb.

WESTERN BOWIE KNIFE

NO. W49 — This large knife conforms to the classic style of the original Bowie knives. Heavy gauge $9\frac{1}{2}$ " carbon steel blade with brass guard and resin impregnated hardwood handle. Full width steel tang extends through entire handle. Overall length $14\frac{3}{4}$ ". Exclusive swing-type molded leather sheath allows this big knife to be hung from the belt and carried with ease.

Shown 1/3 actual size

NO. W49W/P BOWIE KNIFE WITH TROPHY PLAQUE — Bowie Knife, sheath and hardwood plaque designed to hold knife and hang on wall. Plaque has walnut finish and measures 7" x 18". Solid brass sign plate. Complete unit, including wire for hanging, is packaged in one cardboard shipping container.

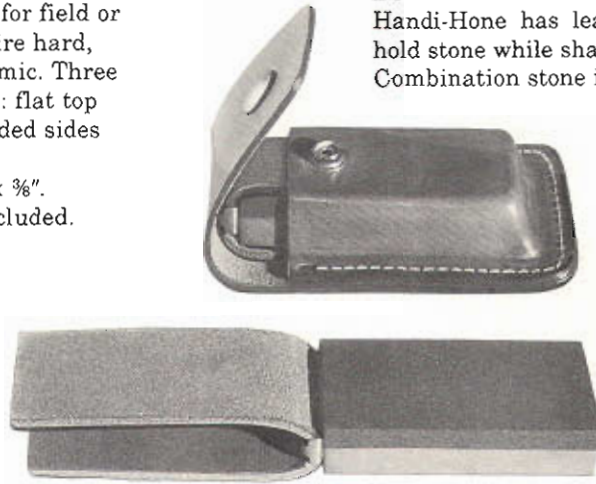

HONES

NO. 992 CERAMIC HONE

—Touch-up hone for field or home use. Sapphire hard, fine grained ceramic. Three different surfaces: flat top and bottom, rounded sides and V-groove. Hone is 6½" x 1" x ⅜". Leather thong included.

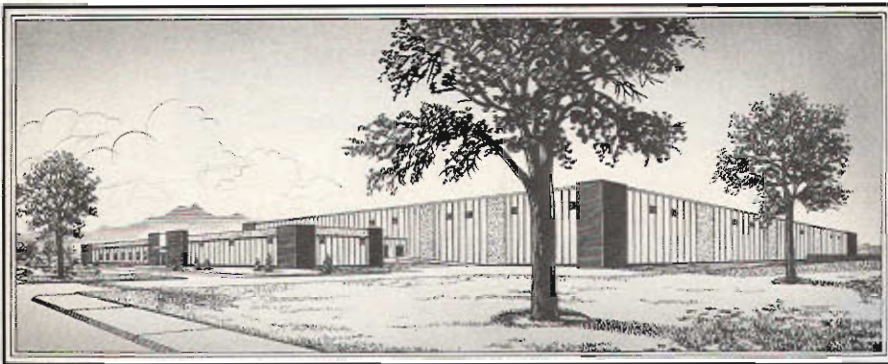

NO. 991 HANDI-HONE WITH BELT SHEATH

— Ingenious Handi-Hone has leather grips to hold stone while sharpening. Combination stone is 3" x 1½" x ½".

BLADE STEELS— Western uses only the finest American made, cutlery grade, alloy steels. Stainless steel blades are made of 440A high carbon stainless steel. This alloy has excellent hardenability as well as the highest shock strength of all the 440 series stainless steels. Carbon steel blades are made of special, high carbon, chrome vanadium steel. Western carefully selects the best temperatures and treatments for each type of steel used. All blades are accurately hardened and tempered for the right combination of hardness and toughness.

PACKAGING — One color tuck-end individual boxes are standard packaging on pocket knives and sheath knives. Three color skin pack cards are available on most sheath knives and pocket knives. These are ideal for self service display. When ordering add the letter P to stock number.

COMPLETE MODERN FACTORY— Western Cutlery Co. is located on a 12-acre site in Longmont, Colorado at the foot of the Rocky Mountains. From 1911 to 1978 the business was situated in the nearby city of Boulder. In 1978, when more space was needed to meet the increasing demand for Western knives, the company constructed a larger building in Longmont and moved the entire operation to its present location. All of the knives, axes and sheaths in this catalog are made here.
