

Knives As Rugged As The Great Outdoors

1993

A Tradition of Quality Since 1911

...and the tradition continues with our new collection of quality-crafted knives, as only Western Cutlery® can make them. Each knife is built by third and fourth generation cutlery craftsmen, to the most modern standards, using only quality materials.

Product selection for 1993 includes our beautiful, work-tough "Bowie", handy two and three-blade pocket knives,

fixed blade hunting knives and skinners, boot knives and our popular Kraton® handled fillet knives. You'll also find two all-new, *double lock back* knives.

With this collection, Western® begins a new commitment to innovation. For 82 years, we have been one of the most innovative knifemakers in America. These pages give ample evidence that we still are.

from our cover...
